

Hasbullah Thabrany

Chief of Party, USAID Health Financing Activity

BREAKING NEW GROUND

CURRICULUM VITAE

EXPERIENCE SUMMARY

Dr. Thabrany has been working in the field of health economics, including health financing for the last three decades in Indonesia. He has been instrumental in developing the National Health Insurance Scheme (JKN) with strong elements of strategic purchasing on the JKN.

He was the Senior Health Financing Adviser to the National Social Security Council, the oversight body instrumental to the implementation of the JKN to ensure the managed care and strategic purchasing techniques that he designed 15 years ago are implemented consistently. He studied Health Policy and Administration at UC Berkeley, in the USA. His network with international experts in health financing lead him to convince the Government and the Congress to commit to reach Universal Health Coverage in Indonesia.

He joined ThinkWell as a Sr. Policy Advisor in September 2018 and will form part our senior leadership team in Indonesia on our Gates funded project and other projects in current start up phase. Since August 2019 has has been in charge as Chief of Party for the Health Financing Activity of the USAID and Ministry of Health project for 2019-2024.

EMPLOYMENT HISTORY

Chief of Party, USAID Health Finaancing Activity

August 2019-present

The USAID Health Financing Activity (HFA) is a collaboration project between the USAID Indonesia and the Center for Health Financing and Insurance (PPJK) of the Ministry of Health 2019-2024. The project covers various activities in health financing, capacity building in health financing, and strategic health purchasing to provide evidence base poliies for the sustainable health financing. Sustatainable health financing covers issues of adequate resources to be mobilized, reasonable payments to health care providers, and good management with adequate support of skills by institutions related to health financing, covering both personal health care (JKN) and public health programs in Indonesia. Hasbullah Thabrany is appointed to lead the project managing 15 staff, both technical and administration.

Senior Health Care Financing Consultant

The National Social Security Council (DJSN) via Palladium Inc.

September 2016 – September 2018

Jakarta, Indonesia

- Review all aspects of regulations, monthly reports of the National Health Insurance Scheme (JKN), and write policy briefs to be used by the Council members in developing new policies.
- Participate in monitoring and evaluation activities of the DJSN to various regions to identify some problems and discuss various issues of JKN implementation with employers, employees, health care providers, and local governments.
- Attend all relevant meetings in discussions of findings from monitoring, evaluation, or discussions on the policy developments to improve the JKN, the National Health Insurance Scheme.
- Prepare drafts of presentations or policies for the Council members
- Analyze data of annual social economic surveys to evaluate how members of JKN as compared to members of private insurance and non-insurance use health care differently before and after the JKN.
- Analyze claim data of JKN members of 2014-2017 to evaluate the benefits incidence used by the members of various groups (formal sector, informal sector, the self-employed, the elderly, women, etc.) and the amount of claim by various risk groups.
- Write annual report (Statistic of JKN) to be published jointly by the DJSN and the BPJS, the JKN administrator.

Professor of Health Policy and Health Economics

Universitas Indonesia

April 2003 – August 2016
